Digital Marketing Strategy

CCB Landscape Services

NOBLE HOUSE

March 18, 2026

Executive Summary

CCB Landscape Services has the operational foundation of a serious business: valid California licenses, $1M insurance, a BuildZoom contractor score of 99 (top 15% statewide), and over a decade serving the Yorba Linda and North Orange County market.

The gap is not in service delivery. The gap is in marketing visibility.

GOOGLE REVIEW

After 10+ Years in Business

525

TOTAL WEBSITE WORDS

Less Than One Blog Post

Every potential customer searching for landscaping services in your backyard finds a competitor first. The business is invisible online, surviving on referrals alone.

The opportunity to transform this gap into growth is immediate and measurable.

Current Digital Presence

Analysis of CCB Landscape's digital footprint across all major channels reveals critical gaps across every marketing dimension.

Brand Presence Scorecard

Channel	Status	Quality
Website (ccblandscape.com)	Active	3/10
Google Business Profile	Active	2/10
Search Visibility (SEO)	Critical	1/10
Social Media	Fragmented	2/10
Paid Advertising	None	0/10
Content Marketing	None	0/10

Overall Brand Maturity Score: 3.3/10

Significantly below luxury market standards for the Yorba Linda and North Orange County corridor.

Top 5 Critical Issues

These issues are actively costing CCB leads every day and can be addressed immediately.

1. Three Broken Navigation Links

Main navigation links for "About Us," "Services," and "COVID-19 Update" all return 404 errors. Any visitor clicking these links encounters a dead end, likely causing immediate bounce.

2. Zero Analytics Tracking

No Google Analytics, no Tag Manager, no tracking infrastructure. The business has no way to measure traffic, understand visitor behavior, or track conversions. Flying blind.

3. One Google Review After 10+ Years

A single 4-star review after over a decade in business. Competitors have 50-200+ reviews. This catastrophic reputation gap is the lowest-cost, highest-impact fix available.

4. Approximately 525 Total Website Words

The entire website contains less content than a single blog post. No blog, no portfolio, no testimonials, no educational content. Service pages are 75-150 words each when they should be 800-1,500.

5. Zero First-Page Search Visibility

Competitive Landscape

The Yorba Linda and North Orange County landscaping market is competitive but presents clear opportunities for differentiation.

Top Competitors

Competitor	Positioning	Strength	Opportunity Gap
Yorba Landscaping	Luxury/Premium	Brand positioning, SEO	Premium residential
BrightView	Corporate/Enterprise	Scale, resources	HOA/commercial (too impersonal)
TLS Landscaping	Community/Reliable	Local SEO, content	Mid-market residential
Universal L&T	33-year veteran	Longevity, reputation	Digital presence
Reliable Tree	BBB A+ specialty	Tree service niche	Website quality

CCB's Differentiation Lane

Owner-Operated Relationship Model

Water Management Specialization

Recommended Strategy

Service Scope

Brand Architecture · Website Design/Rebuild · SEO · Content Marketing · GBP Optimization · Reputation Management · Google Ads · Social Media Management · Lead Tracking & Analytics

90-Day Roadmap

MONTH 1: FOUNDATION

- Brand workshop & identity development
- Website design begins
- GA4/GTM installation
- GBP optimization
- Review generation system launch
- Content calendar development

MONTH 2: VISIBILITY

- New website launch
- On-page SEO deployment
- Blog content publishing begins
- Location page development
- Google Ads campaign launch
- Social media consolidation

MONTH 3: GROWTH

- Content expansion
- SEO refinement
- Ad campaign optimization
- Case study development
- Backlink outreach
- Comprehensive performance reporting

Expected Outcomes

Conservative projections based on similar engagements in the Orange County market.

3-Month Outcomes

15-25
GOOGLE REVIEWS

200-400
ORGANIC SESSIONS/MONTH

3-5
PAGE-1 KEYWORDS

6-Month Outcomes

40-60
GOOGLE REVIEWS

600-1,000
ORGANIC SESSIONS/MONTH

8-12
PAGE-1 KEYWORDS

12-Month Outcomes

Investment

$10,000 – $14,000

Total Monthly Investment

Marketing Retainer

$7,500 – $10,000/month

Brand architecture, website rebuild, SEO, content marketing, GBP optimization, reputation management, social media management, analytics and reporting.

Ad Budget

$2,500 – $4,000/month

Google Ads targeting HOA landscaping, commercial maintenance, water management, and tree service keywords in the Yorba Linda and North OC market.

The gap between where CCB is today and where a well-marketed version of this business would be is wide but not complicated. It is a gap of marketing investment and infrastructure, not capability or quality.

Every component of a modern local marketing strategy needs to be built from the ground up.

Next Steps

1. Discovery Call

Review these findings in detail. Discuss business goals, growth targets, and budget capacity. Address any questions about the recommended strategy.

2. Brand Workshop

If we proceed, we begin with a comprehensive brand workshop to define positioning, voice, visual identity, and differentiation strategy.

3. Phased Rollout

Month 1 focuses on foundation work (brand, website, analytics, GBP, reviews). Immediate visible wins build momentum for the larger strategy.

4. Transparent Reporting

Weekly check-ins and monthly comprehensive reports tracking every metric: reviews, rankings, traffic, leads, conversions, and ROI.

The potential for dramatic, visible improvement is among the highest we would encounter in any prospect.

This is an engagement where Noble House's impact would be immediately and measurably transformative.
